Field Description: CORN MARKET DEVELOPMENT TRIALS

Assumed Selling Price per unit: \$ 3.00/BU

Assumed Drying Cost: \$ 0.06/Point Moisture Over 15%

Yield values are adjusted to 15% moisture

* A premium has been added to the Gross Income. Premium: Waxy Corn=\$0.60/BU

Individual results may vary, and performance may vary from location to location and from year to year. This result may not be an indicator of results you may obtain as local growing, soil and weather conditions may vary. Growers should evaluate data from multiple locations and years whenever possible.

MONSANTO

DEKALB® Corn Legend

VALUE ADDED TRAITS:

- YGCB = YieldGard® Corn Borer
- RR2 = Roundup Ready® Corn 2
- RR2/YGPL = YieldGard Plus with Roundup Ready Corn 2
- YGRW = YieldGard Rootworm
- RR2/YGCB = YieldGard Corn Borer with Roundup Ready Corn 2
- VTRR2 = YieldGard VT Rootworm/RR2®
- YGPL = YieldGard Plus
- RR2/YGRW = YieldGard Rootworm with Roundup Ready Corn 2
- VT3 = YieldGard VT Triple®
- GENSS = Genuity™ SmartStax™
- GENVT3P = Genuity™ VT Triple PRO™

GENERAL:

N/A = Not Available

Before opening a bag of seed, be sure to read and understand the stewardship requirements, **including applicable refuge requirements for insect resistance management**, for the biotechnology traits expressed in the seed as set forth in the Monsanto Technology Agreement that you sign. By opening and using a bag of seed, you are reaffirming your obligation to comply with those stewardship requirements.

ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS. Roundup Ready® crops contain genes that confer tolerance to glyphosate, the active ingredient in Roundup® agricultural herbicides. Roundup® agricultural herbicides will kill crops that are not tolerant to glyphosate. Genuity™ VT PRO™ and Genuity™ VT Triple PRO™ commercialization is dependent on many factors, including successful conclusion of regulatory process. Genuity™ VT PRO™ and Genuity™ VT Triple PRO™ have not been registered by the U.S. Environmental Protection Agency. It is a violation of federal law to promote or sell an unregistered pesticide. Respect the Refuge®, Roundup®, Roundup Ready®, YieldGard®, YieldGard VT and Design®, Genuity™ VT PRO™, YieldGard VT Rootworm/RR2®, YieldGard VT Triple®, and Genuity™ VT Triple PRO™, Genuity™, Genuity and Design™, Genuity Icons, SmartStax™, and SmartStax and Design™ are trademarks of Monsanto Technology LLC. DEKALB, DEKALB and Design and WHEN PERFORMANCE COUNTSTM are trademarks of DeKalb Genetics Corporation. Liberty Link and the Water Droplet Design® is a registered trademark of Bayer CropScience AG. Herculex is a trademark of Dow AgroSciences LLC. All other trademarks are the property of their respective owners. ©2008 Monsanto Company.

IMPORTANT: Grain Marketing and Seed Availability: Genuity™ VT Triple PRO™ has received the necessary approvals in the United States, however, as of 07/30/08, approvals have not been received in certain major corn export markets. Genuity™ VT Triple PRO will not be launched and seed will not be available until after import approvals are received in appropriate major corn export markets. When launched, Genuity™ VT Triple PRO will bear the Market Choices mark, indicating the need to find a market for the crop that will not ship the grain or its processed products to Europe. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. Other stewardship requirements may apply; consult with your seed representative for current stewardship information.

Genuity™ SmartStax™ has received the necessary approvals in the United States, however, as of August 2009 approvals have not been received in certain major corn export markets. Genuity™ SmartStax™ will not be launched and seed will not be available until after import approvals are received in appropriate major corn export markets. B.t. products, including Genuity™ SmartStax™ may not yet be registered in all states. Check with your Monsanto representative for the registration status in your state.

IMPORTANT: The following information is current as of 08/07/08: YieldGard Plus and YieldGard Rootworm with Roundup Ready Corn 2 are grandfathered for import and use in processed feed in the E.U. YieldGard Plus with Roundup Ready Corn 2, YieldGard VT Rootworm/RR2 and YieldGard VT Triple are neither approved nor grandfathered and there is zero tolerance for these traits in processed feed imported in the E.U. Growers of all products bearing the Market Choices mark must talk to their grain handler to confirm the handler's buying position for grain from these products. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. B.t. products may not yet be registered in all states. Check with your Monsanto representative for the registration status in your state.
